are very jealous of their reputation and are much troubled when anything happens that might have a tendency to in-And yet these same men put little time or thought on making character. The difference between reputation and character is too often confounded. Reputation is what men think of us; character is what God thinks of us. Reputation is what we appear: character is what we ARE. Reputation is public, but character is private property. If we take care of our character, our reputation will take care of itself. No truth needs to be impressed more than this, and especially upon the boys and girls that are growing up among us today. Too much stress is laid on having a good reputation and too little on having a good character. Reputation is for time only but character is for ETERNITY. Therefore we cannot be too care-

While in Cincinnati recently we noticed the following, written in a public place, viz.:

"Our Reds won the world's championship by playing clean ball. You can win out in the great life-race in the same way

What a wonderful amount of truth is contained in those words! So immersed are we in the material things of this life that we lose sight of the fact that, after all, human life is but a race in which we have all entered and in which we must either win or lose. thought seemed to have been uppermost in the mind of the Apostle Paul, and, oh, how lovingly and earnestly he exhorts us to watch our steps and guard well against those things that might cause us to stumble and fall, and thus lose out in the end! "I press on toward the goal," said he, and so should we, remembering always that a clean life is necessary in order that we reach it successfully and gain the crown that has been so graciously promised us.

> Life is a mirror of king and slave; Tis just what we are to do. Then give to the world the best you have And the BEST will come back to YOU!

Many of us are entirely too little oncerned about our daily life. We seem to forget that there is a stream of influence flowing out from each life, and that that influence, good or bad, conscious or unconscious, is having its effect daily upon the lives perhaps of many By our daily life we are showing others whether it is worth while for them to believe in God or not. Some people make it easy to for them to believe in God or not. Some people make it casy to believe in God, while others make faith in Him almost impossible. Not long ago a man was preaching on the street, laying great stress on the matchless character of Jesus, when he was interrupted by one of his audience, who said: "Friend, we haven't anything agin Jesus of Nazareth, but we have something agin some of his professed followers, because they ain't up to the sample!" Oh, that in our daily life we might all live "up to the sample!" Then unbelievers would have no excuse whatever for withholding their active support to Him who loved them and who gave His life for them. Yes yes: to Him who loved them and who gave His life for them. Yes, yes let's remember the week day and keep it holy as well as the Sabbath!
